

Reverse Auction Website for Domestic Clients Introducing YouKwoteMe.com

FOR IMMEDIATE RELEASE

14 JUNE 2016 - YouKwoteMe.com is the only website where People AND Traders can leave feedback rating to Clients. There are many bad publicities regarding Cowboy Builders but a matter of fact is that Traders are also subject to many issues with Clients, so having a place where Clients and Traders can be checked based on past performances and behaviors is definitely one of the key features of YouKwoteMe.com.

<https://www.YouKwoteMe.com> is a website aimed at revolutionising the industry by posting the work you need doing online and Builders or professionals will simply reverse bid on your job forcing them to literally drive down their Kwotes. As part of the innovation, users can choose to either allow all traders to bid, only approved traders to bid or for traders to submit realistic quotes for the jobs. Once the auction is completed, the Client will have the option to wait or start with the works from which both are covered under the YouKwoteMe.com Contract. There also many other tools such as the daily diary log to record progress, payments made and what its called the Change Request where builders can submit a change highlighting if there is a additional cost or time for you to simply accept or reject the change.

In addition to that there is the YouKwoteMe.com Disputes Resolution Centre ready to get into action each time there is a problem to be solved and a third party assessment in needed.

Once the works are completed both the Client and the Trader reward each other using the YouKwoteMe.com Feedback Rating.

The CEO and founder of YouKwoteMe, said: "I have been working in the Construction Industry all my life and YouKwoteMe was created to the fact of not having a place where people can post their jobs and traders would simply look at them and decided if they want to do it or not without the need to pay for leads. All online from a press of a button. How many times Builders receive calls, go to the site to have a look at the work, want to do it but never knows why he wasn't selected? How often you are faced with the difficult decision of choosing which Builder to select or when Builders submit their quotes the difference is so large that you are simply confused and don't really know what to do? With YouKwoteMe we have simply automated these issues so it simply doesn't happen. It also protects you as the Client and the Traders saving time and money to both."

YouKwoteMe.com is also based on the pre-Qualification process used on major projects and incorporates the same concept as eBay but in reverse where all the process can be followed up and tracked from start to job completion.

YouKwoteMe.com is the only webiste where people can:

- Pre-Approve Traders
- Reverse auction
- Select Quotes
- Select Traders
- Record progress
- Accept changes
- Built-in Contract
- Disputes Resolution Centre
- Leave and receive Feedback rating
- Save documents online
