

Signature Impression By Harriet

Shear Delight As Suffolk Company Takes The Lead With Personalised Prizes

FOR IMMEDIATE RELEASE

13 NOVEMBER 2017 - A Suffolk company has provided bespoke keepsake roses, as prizes for the British Dog Grooming Championships.

Signature Impression By Harriet was commissioned for the national event after the Pet Industry Federation saw her personalised roses and thought they would be ideal for their event prizes.

The keepsake artificial roses were personalised onto the petal, embossed with a logo and competition classification and presented in elegant gift boxes for the competitors.

“Event organisers are looking for something different these days and the personalised roses are an ideal contemporary prize or business gift”, says owner Harriet Baker. “The roses are personalised to order and are a contemporary way to of displaying your own branding with a subtle marketing message”.

The beautiful roses, which can be either fresh, or artificial ‘keepsake’ for lasting effect, are personalised with an embossed message on the petal. The message can be general, such as ‘Merry Christmas’, or more personal – and can even include branding with your company logo.
