About REVL

"REVL means to revel. It can also mean REVeAL - revealing the greatest events in your city; REVoLution - starting a revolution in the events space; and REVeLation - to have a moment when you discover something new and it clicks with your desires or interests."

The brainchild of four minds from the hospitality, fashion, media and tech space; REVL was based on the frustration of not being able to find everything they wanted to go to in one place. 18 months and 18 employees later, REVL was born with one mission: to become the most exhaustive events app on the market. And we won't stop there.
