

Microblading & Permanent Makeup - cut your beauty routine in half

FOR IMMEDIATE RELEASE

11 APRIL 2017 - Did you know that the average woman spends two years of her life applying makeup? Can you believe that?! Think of all the other things you could be doing with that time and money. You could start your own business or travel around the world – several times!

Luckily, it's not too late to get the time back. Don't worry; it doesn't involve going completely barefaced either!

Have you thought about Microblading or Permanent Makeup?

If low maintenance is your thing, a permanent makeup treatment could be just what you need to make your life that little bit easier.

Have permanently perfect brows, eyeliner or lipstick and wake up with make up every day. Whether you love a bold dramatic look to your makeup or prefer a low-key natural effect, there's a permanent cosmetic treatment for you.
